

Welcome Flyers,

The Brown Condor Association is glad you are helping create aviation history by participating in the Fourth Annual Cruisin' the Coast Fly In & Fly-By. A FREE EVENT

The events will take place Saturday, October 12th at Gulfport Biloxi International Airport (GPT). MillionAir FBO. All participating aircraft for the fly-by on Saturday, October 12th, must arrive two hours prior to departure (by 1:00pm) to register and participate in the festivities and safety briefing.

At 2:30 P.M. the aircrafts will begin to line up on taxiway, as per the brief.

There will be transponder codes assigned to the lead plane, the mid plane, and the last plane. All others will squawk 1200.

The formation will depart in 9 seconds intervals, and each participating pilot must keep visual reference to the plane ahead of him or her.

The flow of aircrafts will head west over the Back Bay to Biloxi Oceans Spring Bridge, then turn west and fly over the coastline at 500 feet AGL. At the Bay of St. Louis, the aircraft will turn north, at a quarter of a mile for safety clearance, then return the flight east to Gulfport.

Please contact Francisco Gonzalez 601 299 2816 for more information, and we greatly appreciate your participation in this one-of-kind event! The fly-in and fly-by are free to all participating aircraft and their guests.

Please RSVP by signing in on this web page.
